

# Pictograms

Emile has decided to illustrate how many fruits they harvested with a pictogram. Can you help Emile explore the chart?

What number does the half circle represent?

How many apples were harvested?

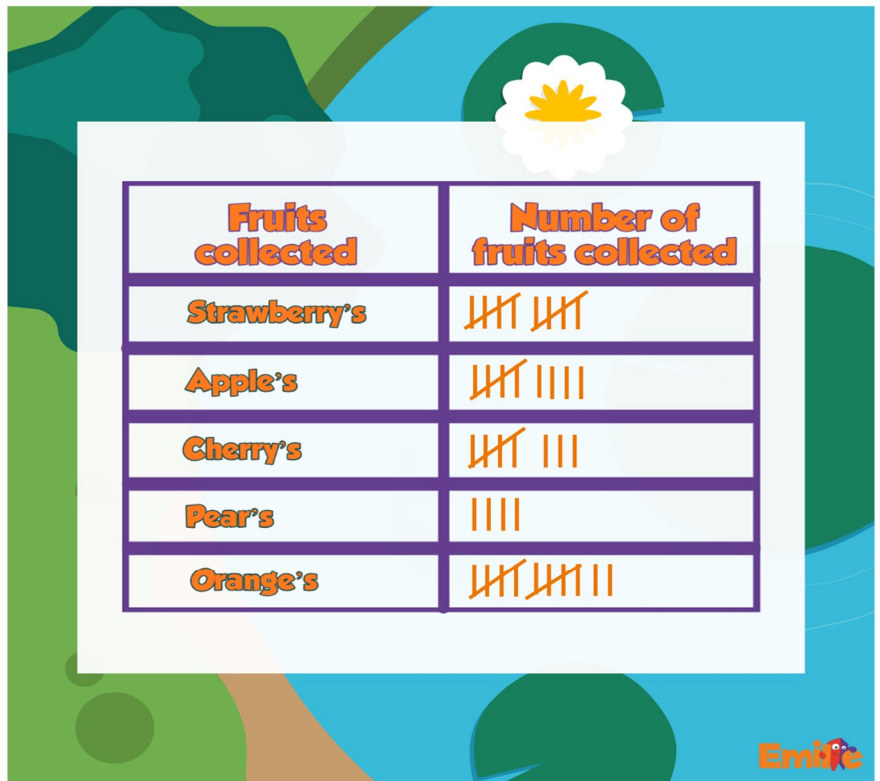

Emile has harvested two more pear's, show this on the pictogram.

# Tally Charts

**This Year Emile and friends have decided to harvest fruits from the Emile farms.**

**To keep track of what they pick they have decided to use a Tally chart. They have found it to be very helpful to keep track of what they are harvesting, but they still need some help !**

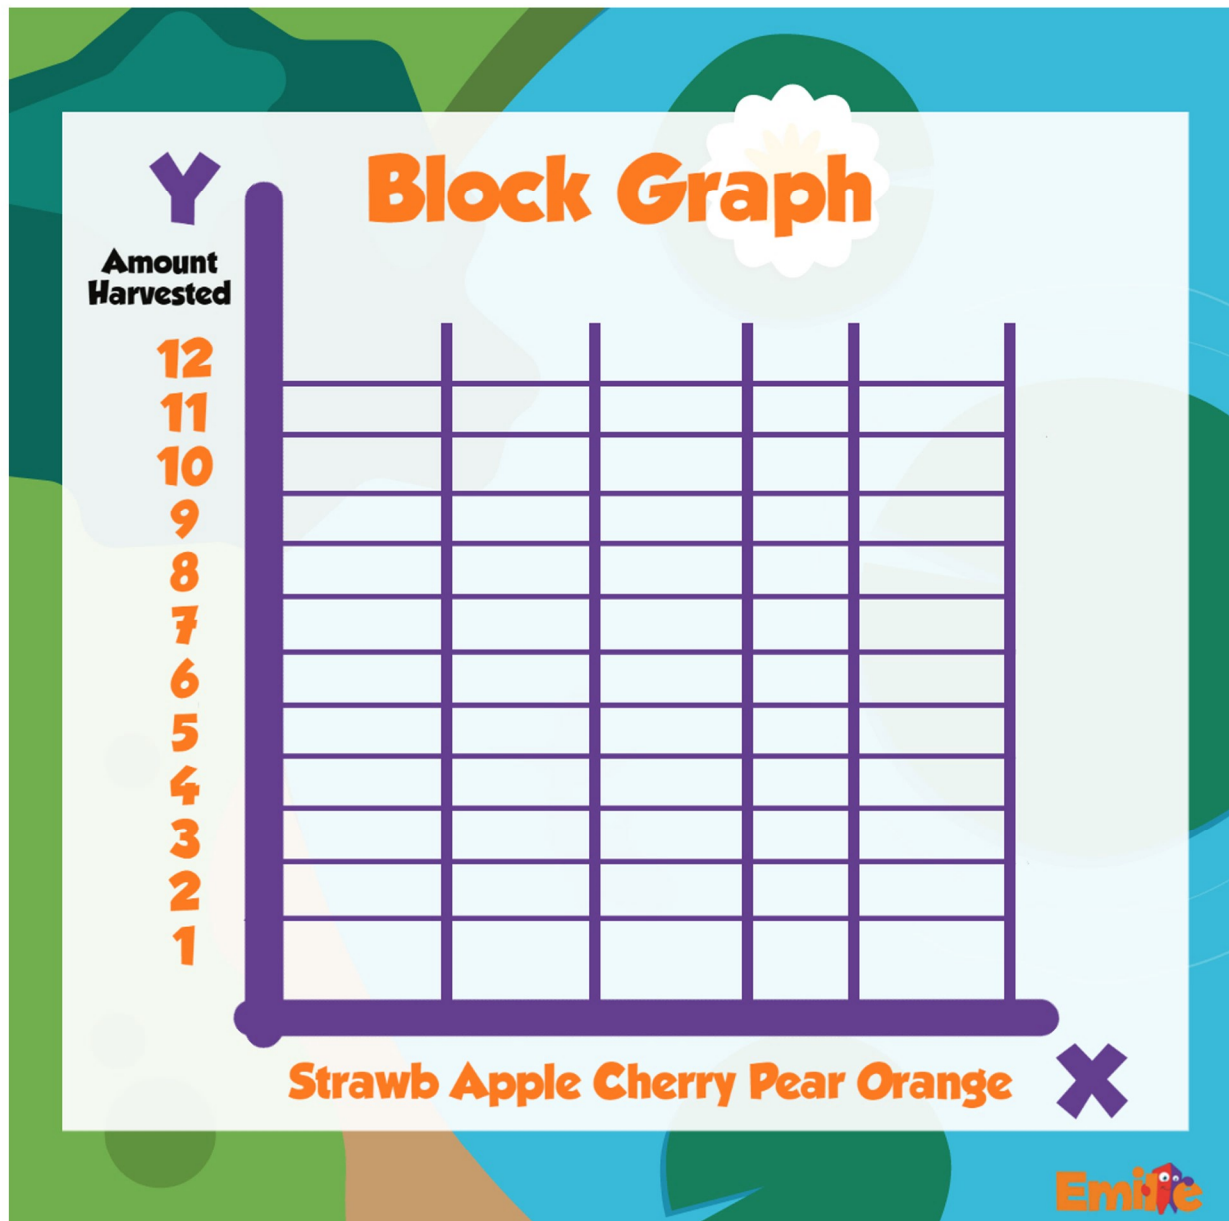

**What fruit was harvested the most?**

**What is the difference between the most and the least harvested fruit?**

**How many fruits were harvested in total?**

# Block Graphs

It seems like Emile has forgotten how to illustrate his data on a block graph ! Can you help him complete the graph with the data collected from the tally chart?
